

Granular Materials Technical Committee: Student Video Competition 2023

The Granular Materials Technical Committee (GMTC) is hosting its second Video Competition for graduate students to present their research findings (experimental, computational, and theoretical studies) within the broad field of granular materials. As nearly every product, commodity, or infrastructure is constituted from, derived from, or supported by particulate materials through mining, agriculture, and/or chemical processing, the competition spans the engineering disciplines, applied mathematics, materials science and physics.

The GMTC welcomes all graduate students in these fields to submit 10-minute videos within the period from October 3, 2022 to March 3, 2023 (eastern time, US). All entries will be judged based on technical content, clarity of the presentation and quality of the slides. Three cash prizes will be awarded for the best experimental, computational and theoretical entry. Winners will also be given a free banquet ticket at the EMI 2023 Conference, if they present their work at the GMTC Symposium.
